

RFID Luminous Checkpoint Tags

Water-resistant, ABS plastic material, 125KHz. EM card.

- > Check sport type: RFID
- > Working frequency: 125KHz. EM
- > Battery: None, passive tag
- > Working temperature: -40 C ~85 C
- > Size: 70*70*10mm
- > Weight: 33g
- > Water-resistant, ABS plastic material, can be scanned around 350,000 times
- > Installation: Glue with structural adhesive or fixed with screws
